Website Proposal – Seng’s Delights Proposal 1

2. Research and Planning

2.1 Introduction

In this proposal we are planning to create and design a developed website for King’s Delights Bakery, a small local online business. The goal is to develop a useful and aesthetically pleasing website that advertises the bakery’s goods and attracts more customers.

2.2 Research and Planning

Organisation Overview

- **Name: Kings delights**
- **Brief history of organisation**

King’s Delights is a small business that focuses on freshly baked goods like biscuits, pastries, cakes, cupcakes, and delicious desserts. It serves both locals and out-reach people. King’s Delights accepts special orders for all kinds of occasions like birthdays, weddings, and graduation orders. King’s Delights began as a small home-based bakery, driven by a passion for baking and a love for creating delicious, high-quality treats. The business started by supplying

baked goods to family, friends, and local customers through word-of-mouth and social media platforms. With a focus on creativity and unique flavours, King's Delights quickly gained popularity within the community.

As demand for its products grew, the business expanded its operations by taking on more custom orders for special occasions such as birthdays, weddings, and celebrations. This growth allowed King's Delights to build a strong customer base and establish a reputation for quality and reliability.

Mission and Vision Statements

King's Delights is committed to creating high-quality, freshly baked goods that bring joy to every customer. The business strives to use premium ingredients, deliver excellent customer service, and provide beautifully crafted products for everyday enjoyment and special occasions. Provide freshly baked goods to satisfy customers with a burst of flavour using fresh ingredients and displaying the beauty of the cakes and pastries. The business aims to expand its presence both in-store and online, reaching a wider audience and becoming a preferred choice for custom cakes and sweet treats.

Target Audience

Catered to everyone including residents, customers, family functions, and anyone who enjoys baked goods. Includes customised cakes for people planning birthdays, graduation celebrations, and wedding celebrations. Most of the audience targeted is between any age (e.g., 1–90...).

2. Website Goals and Objectives

- The main goal for King's bakery website is to create and develop a strong online presence and attract more customers to purchase their goods.
- The platform is designed to display listed products to customers and provide valuable information to website users.

Objectives

- Give customers easy access to the website to help them find their desired products easily.
- Give customers a clear view of the price and size of the available products.
- Increase sales to encourage existing customers to order online and make inquiries, and to reduce unnecessary paperwork.
- Create a visually appealing and user-friendly website.
- Improve communication with customers through a contact page and equipped forms.

- Provide clear and detailed information about the bakery.

Key Performance Indicators:

- Increase website traffic, indicating that more customers have visited the battery website.

Practice Customer Feedback:

Customer feedback helps improve the website and allows the owner to address areas that lack an enjoyable experience. Positive feedback.

Given the Satisfaction of the user.

Page Views = The more the page is viewed, the more it indicates that users are interested in the product, that they are exploring the website, and may recommend it to others.

2.4 Proposed Website Features & Functionality

The website will include:

- Homepage: Products and features of the bakery.
- About page: Detailed information about the history of the bakery and about the battery.
- Product page: All the available baked goods with prices, clear images, and sizes provided.
- Contact page: Contact details of the owner and email of the owner and shop.
- Enquiry page: enquiry form for more information

2.5 Design and User Experience

The website will have a contemporary, friendly, and welcoming design style that captures the essence of the bakery. The objective is to design an aesthetically pleasing and welcoming experience that entices people to purchase or share treats.

Colour Scheme

- Blue (#03AED2)- representing the blue logo hat that indicates that the owner is a chef
- Black (#000000)- black representing the outline of the font
- White (#FFFFFF) – Represents the chef's hat and is used as the logo, capping a clean section.
- The colours represent the bakery brand and make the website more visually aesthetic and consistent.

Typography

- Headings: Poppins Bold

- Subheadings: Poppins Medium Bold
- Body Text: San Regular
- This creates a clean and modern layout suitable for the bakery.

Layout and User Experience

- Simple homepage
- Product gallery with excellent quality photos
- Simplified menu navigation: Keepers, About Us, Products, Contact Page
- Use the Instagram button to place ads or the contact details for WhatsApp
- Friendly design for users with smartphones

5. Low fidelity wireframes

- Home page (index page)- includes the logo and the hero shot as well as the navigation bar (about-us, service, enquires, contact)
- Service/product page- images indicating what the business provides with clear images and flavours
- Check-out screen- the enquiry form that is submitted with all the description of the type of flavour and design

6. Technical Requirements

-Programming Languages

- VB code
- HTML
- CSS
- JavaScript
- Java

-Hostname & Domains

- Domain: www.songdelegths.co.za
- Hosting: WebApp.net

-Media Tools

- Canvas
- Instagram tools

7. Timeline and milestones

TIMELINES

Week 1: Research & Planning including Proposal.

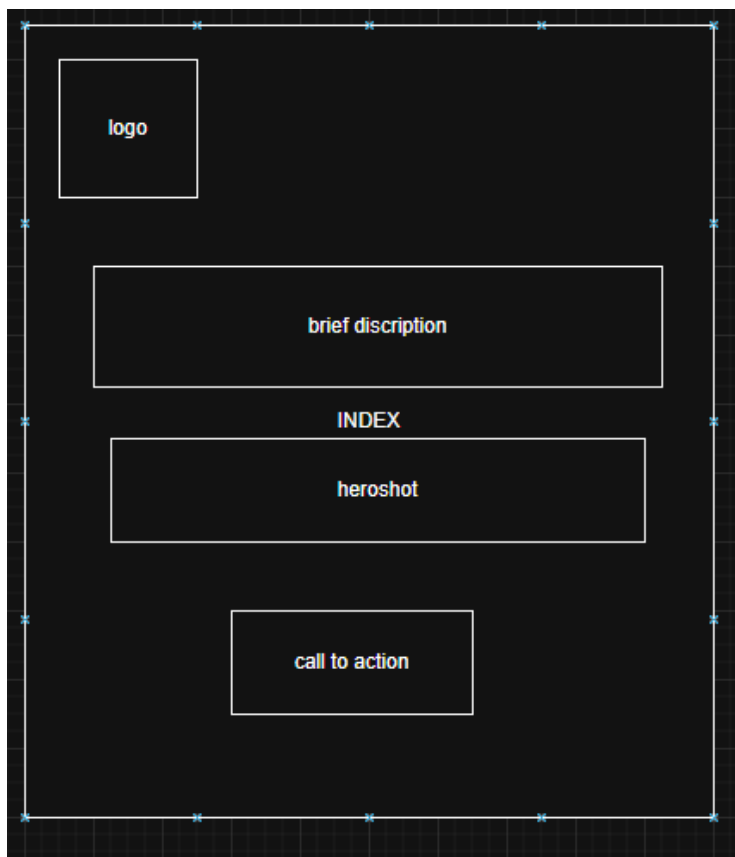

Week 2: Beginning of Proposal – all needed information (e.g., Branding, Structure of proposal)

Week 3: Due date of Proposal (30 March 2025)

Week 4: wireframe (page sketches) and HTML

DUE DATE OF PART ONE: 20 APRIL 2026
